UNITY WILL WIN THE TRANS-FER FIGHT.

When The Washington Times, five ears ago, opened its long and arduous fight against the Gas Monopoly of this town it was animated by purpose to GIVE THE PEOPLE A CHANCE TO HELP THEMSELVES.

That is, after all, the most a news paper can do in such a contest. It can vocalize, crystallize, and focus the sentiment of the community.

At the beginning of the gas fight hundreds of sympathizers shook their heads and protested that there WAS NO EFFECTIVE PUBLIC SENTI-MENT IN WASHINGTON. They believed a fight for the public interest could get nowhere because it would command no backing.

The Times did not believe that. It was convinced that Washington people were as intelligent, open-minded, wideawake as any city in the world could boast. It proposed to put that conviction to the touch and the test.

The gas fight is half won, and the other half of the victory is assured. When The Times took up the cudgels

in behalf of decent, human treatment for the thirty-odd thousand people in the civil service establishments in this city, and the hundreds of thousands all over the country, there were like ominous misgivings. Nobody ever HAD accomplished anything for the civil service people; why should it now be possible?

But The Times had come to know its constituency. It believed in them and it knew they believed in it. The response, when that civil service fight was opened, was instantaneous.

Today, that contest, too, is organized, financed, commands the sympathy of the whole country. It has enlisted periodicals. Congress is aroused to its Congress here October 2 is an event readjustment of the wage scale of labigness and seriousness; and success is the importance of which should not be bor can only be brought about by lasurely at hand.

Two alternatives confront the traction masters of this town.

They may attempt to stand against the people, and at length get a drubbing that will leave them discredited,

unpopular, and suspected. Or, they may frankly yield to the and win the good will of their patrons.

Which will it be? To fight means to spend money and energy lobbying in hood is hard to understand, for a valet a hopeless cause in Congress. It means who can take the clothes off a sleep- to pay big fees to lawyers, to waste money in litigation that ought to be put into the property. It means failure in any case.

The veriest tyro cannot be so blindto loom large in the public eye. He is ed against the signs of the times as John Q. Wood, United States consular not to realize that the present personnel, temper, and leadership of Congress guarantee this.

The people are going to win the universal transfer fight, because at last ALL THE PEOPLE are united and

realize their rights and their POWER. That is all that Washington has ever needed to secure justice from the interests that have so largely ruled it.

Let us go back to the history, for a moment, of the long agitation in Cleveland for 3-cent car fares. Tom Johnson led that warfare for years. two months after his death the 3-cent fare with universal transfers was es-

Sons of America, Odd Fellows' Hall, dropped.

This Cleveland instance contains several suggestions which Washington's street car magnates will do well

In the first place an incident to the long fight was the pruning down of capitalization till the Cleveland traction business was on an approximately

honest basis in this regard. That will happen in this town if a

long and bitter fight is forced. Do the traction lords of the Capital City feel like estimating the shrink that would

take place in such an event? In the next place, the Cleveland street cars have proved that the business will grow, under the impetus of lower fares, to the extent which is indicated by the discovery that the penny charge for transfers is not now

Finally, the Cleveland public authorities, in order to inform themselves as to the actual operating results of the business there, have established a method of public audit of the business. There are no secrets of the traction business in that town.

Do the traction companies of Washington want that sort of scrutiny imposed upon their business?

Cleveland boasts today of being the sixth city of the country in population. It has been for fifteen years in a hard fight for better government, better more complete rule by the people.

THOSE EFFORTS, FAR FROM IN-JURING BUSINESS IN CLEVE-LAND, HAVE BEEN ACCOMPANIED BY A BUSINESS AND INDUSTRIAL DEVELOPMENT THAT HAS MADE CLEVELAND'S POPULATION SHOW-THE 1910 CENSUS.

Washington is awakening to the fact that a like animated, determined conthis town will bring like results here.

The town is united and determined to win this transfer fight. It is going to win; in a fight if necessary; without a fight and accompanying bitterness if the traction authorities are

ADVANCE OF LABOR, SAYS MR. MUNSEY

Should Not Fight Solution of Reorganization Problem, He Declares.

Mr. Frank A. Munsey was interviewed in London by a representative of the Evening Standard and the St. James Gazette regarding the situation in the labor world, and the article printed in those newspapers follows:

The recent upheaval in the labor world has attracted the attention of thoughtful people in other countries, control of its public service facilities, who have contrasted the conditions prevailing there with those attaching to British industries.

As it is well at times to see ourselves as others see us, the opinions of visitors from distant countries have especial interest at this juncture. Mr. Frank Munsey, the well-known American publisher, who is at present on a visit to London, has definite views on the re-ING ONE OF THE WONDERS OF organizing process that is going on all over the world.

"It has to be met." he said, "and the better way to meet it is not for substantial citizens to stand off and fight cern about the real public interests of it and condemn it, but rather to get in and become part of it and shape it right

BRICKLAYER MOORE AGAIN CAUSES COMMENT

To the Editor of THE TIMES:

In one of your recent issues I rea The case of one bricklayer." Do you not think it would be a good idea to look at his work? The best proof of a workman is the work he does. And I should think that was all that is necessary. FAIR PLAY

WRTES IN DEFENSE

I feel justified in making a few remarks regarding a contribution condemning labor unions which I read in your valuable paper of the twentieth inst. The labor unions are the workingman's "best friend" and every good American citizen who has opportunity should belong to one. The unions are not to prevent mer from working but to maintain a fair day's pay for a fair day's labor, and the unions cannot be held responsible for the actions of a few unscrupious persons who may be in them. The aboring man always have had and will have a hard time to maintain a decent livelihood, but it is due to the efforts of the unions that doesn't have even a harder one. The true union man helps and not retards the progress of his fellowman. And regarding strikes-who suffors when the strike is on? Who pays for the lost time; and last, but not least, who reaps the benefit when the

T. J. McDOWELL. PROFANITY IN FICTION ON THE INCREASE?

To the Editor of THE TIMES: We think that it is about time to say something in advice and warning against the growing use of profanity by ambitious writers of fiction. From editors and publishers everywhere we are hearing the same story. We like to think that in actual life the use of strong language is on the wane; that personality it would be quite impossible to associate the idea of profanity in any form, will bring in a manuscript, and on almost every page we find examples of profanity. Heroes in this sort of fiction invariably preface their protestations of affection with an oath. Now, against this sort of thing we have every right to protest on the grounds of good manners and decency. We shall however, confine ourselves to the purely literary aspect of the case. profuse use of profanity is not merely profuse use of profability is not merely inartistic; it stamps unmistakably the beginner or the ineffectual workman.

LOEB NOW LEADING AS CHOICE FOR TAFT CAMPAIGN MANAGER

New York Collector Regarded as Good Man to Win Progressives.

By JOHN SNURE.

That Collector William Loep, Jr., of New York, former private secretary to the President, is to be offered the chairmanship of the national Republican committee and the management of the next Presidential campaign, is the highly interesting news which has de-

veloped here. The information that Mr. Loeb is the man now in the lead for the management of the next campaign comes from excellent sources. Providing President Taft is renominated, something his friends now deem certain, despite the claims of the insurgents, it is said Mr.
Loeb will be called on to be the general commander in the great political
battle which will end at the polis in November, 1912.

Either Loeb or Hilles.

For some time, it has been the talk here that the selection would lie between two men. Private Secretary Hilles and Mr. Loeb. If Mr. Loeb should not be chairman, there is little doubt Mr. Hilles would be. One good reason why President Taft would rather have some one else than Mr. Hilles is that the latter has made himself so invaluable as private secretary that it would be embarrassing for the President to lose his services at the White House.

More or less talk has been heard of a third party movement on the part of the progressive Republican leaders, in case Mr. Taft is renominated. But this movement does not seem likely to ma-

The Progressive Problem.

But there will be thousands of disgruntled insurgents in the rank and file who, if Mr. Taft heads the ticket again, will sulk and will be disposed either to stay from the polls or to vote the Democratic ticket. This will be the case especially if Woodrow Wilson, with his record for progressivism, is nominated by the Democrats. It will be a great problem to keep these men in line. One of the strong reasons for selecting William Loeb for chairman and manager is that he is on good terms with the progressives. He is, in fact, a good deal of a progressive himself.

Much of the progressivism of Roosevelt
was due, as a nutter of fact, to Loeb.

Trained to politics in more than one
school, and especially in the school of that Mr. Loeb as Republican campaign manager would give the Democrats a hard run for their money. He would come nearer winning the campaign. probably, than any other leader could. For one thing, he would doubtless be able to prevail on Theodore Roosevelt to take the stump for the success of the Republican ticket That Frank H. Hitchcock will not be the next campaign manager is generally understood now.

President's Sister in Philadelphia Hospital

PHILADELPHIA, Pa., Sept. 25.-It became known today, after frequent dontals of her nee Mrs. William A. Edwards, only sister of President Taft, who is the wife of William Edwards, of Los Angeles German Hospital, in this city, where she was the subject of a medical examination by Dr. John B. Deaver, & prominent surgeon of Philadelphia. Mrs. Edwards spent the summer in Europe and arrived in this country early last week. She feared a serious

fection and decided to see Dr. Deaver who is an expert on appendicities She came to this city Friday, and, according to Dr. Henry F. Page, s intendent of the German Hospital, admitted there as a private patient of Dr. Deaver. Mrs. Edwards left on Saturday afternoon and went directly to New England, presumably to visit sident Taft's family in Beverly,

Dr. Deaver in a telephone conversation last night admitted that Mrs. Ed-wards had consulted him.
